Forecast for Sunday 09 Jun 2024

Weather: A few light showers in the morning, wintry on the highest tops. The afternoon will be cloudy with showers, occasionally heavy with hail, spreading from the north and lingering through the evening. Sleet or wet snow on the very highest tops.

Chance of cloud-free hill tops above 800m: 60%, best chance in the morning

Low cloud and visibility: Very good visibility with great air clarity outside of cloud and showers. Some patchy cloud around 700 metres at first, otherwise cloud mostly at 900 metres or higher. Summit cloud becoming more widespread around showers.

Met Office Aberdeen Meteorologist's View
Be prepared for significant wind chill especially at higher elevations.

Forecast for Monday 10 Jun 2024
Weather: A bright start with isolated light showers in the morning, wintry on the higher tops. Clouding over through the afternoon with showers becoming more widespread, although any sleet or snow confined to the very highest tops. Cold at height with significant wind chill.

Maximum wind: Northwesterly average speeds 30 mph with gusts to 40 mph, but nearer 50 mph across the Cairngorm Plateau

Chance of cloud-free hill tops above 800m: 40%, best chance in the morning

Low cloud and visibility: Very good visibility with great air clarity outside cloud. Patchy cloud around 900 metres in the morning. Low cloud becoming more widespread in the afternoon, with bases down to 700 to 900 metres shrouding more of the summits.

Temperature: **Glens:** Plus 4 rising to 12 Celsius
At 800m: Plus 4 Celsius
Freezing level: 1100 to 1200 metres
